

May is here! Already?! This year is flying by and we are now in the final two month stretch. Continue to monitor the weather forecast to send what is needed in terms of outdoor gear.

Please continue to send a water bottle with your child every day. As the weather gets warmer outside, it is so important for them to stay hydrated and personal water bottles decrease the line up at the fountain multiple times each day.

Parent Volunteers

Thank you so much for your faithfulness in helping out! It is such a joy to have you in the class and I am always so grateful for your willingness to dig in and help with photocopying, painting, cleaning up painting, labeling, etc!

Volunteer Tea

The Volunteer Tea is on Tuesday, May 13th at 10:00 a.m. at the school. Please come and be celebrated! Invitations will be emailed soon. Please RSVP either way to let us know if you are able to attend.

Field Trips

Thank you for all of the permission forms that have already been returned for the Arbor Day field trip. This is a half day field trip on the afternoon of Friday, May 9. On Friday, May 30 we will be going the Edmonton Valley Zoo. An email from Permission Click will be sent out in a couple of weeks. These trips fit very well with our Science units as we study environments and living things.

Language Arts

The students are working hard to become super readers and writers! Keep up the home reading - them reading to you and you reading to them. Asking questions about the story helps them work on comprehension and learn new vocabulary words.

As the number of daylight hours increase, the number of tired children often do as well! Thank you for doing your best to stick to regular bedtimes to help your child be well-rested and ready for full and busy days at school.

Please keep the May calendar handy to keep you up-to-date regarding school events and days off. This month has a lot of special events! Our Victoria Day weekend this year is a three day weekend.

We have been learning about measuring different aspects of objects and we will begin learning about 2D and 3D shapes this month. We also continue to practice making and breaking numbers.

If you have read this newsletter, please send in a note with your child that has the secret phrase on it (God is so good!), as well as your signature and your child's name by Thursday, May 8th.

It is such a joy to see your sweet child every day and a privilege to be able to teach each one! Please continue to keep all of us in your prayers as we finish the year strong!

Mrs. Christensen
